

Richmond Science Fair

Submissions Due 3/1/14

PTA is excited to host another fabulous Science Fair on **Friday, March 14th, 6:30-8:00pm**. Students may participate in one of 5 categories: Experiment, Invention, Research, Collection or Living History. Register by sending the information asked for below via email to mpowers.pdx@gmail.com with subject line "Science Fair", or turn in the form below to the Science Fair box in Room 110. You will get an email in a few days confirming receipt. If you need another form, visit the Richmond PTA website, richmondptapdx.com. Poster boards are also available for sale for \$3/board in Room 110. Please register no later than **March 1, 2014**.

OMSI will be coming with an interactive display! Come enjoy all the great exhibits!

There are several ways for parents to get involved:

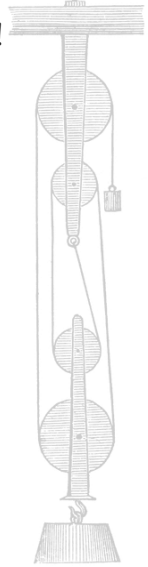

Share: We're seeking parents to mill about in the "costume" of their science-related profession or hobby to describe their science-based jobs.

Exhibit: Do you have amazing science displays, collections or other visuals you may share? Are you involved with a science volunteer organization that might like to come and have a booth or share their expertise with the kids?

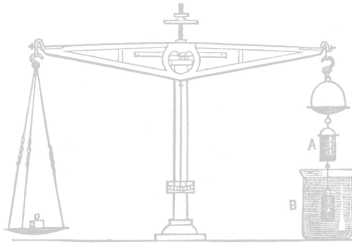

Judge: Come help by providing feedback to the participants.

Reward: Help create certificates of participation for the students.

Set-up/Clean-up: Help is always welcome!

For QUESTIONS about the Science Fair, or if you're interested in helping out in any way please contact Rebecca Harrison at harrison@ohsu.edu
